

# Key Instant Recall Facts

## Year One – Summer 1

I can add 10 to a number.

I can add three to a number

By the end of this half term, children should be able to add ten instantly. They should also know adding three to a number facts off by heart.

<p>Children should be able to see that only the tens digit changes when adding ten to a number. These are examples of the questions the children should be able to instantly answer.</p> $2 + 10 = 12$ $5 + 10 = 15$ $10 + 10 = 20$ $16 + 10 = 26$ $23 + 10 = 33$ $31 + 10 = 41$ $37 + 10 = 47$ $45 + 10 = 55$ $57 + 10 = 67$	<p><u>Adding three to a number fact.</u></p> $1 + 3 = 4$ $2 + 3 = 5$ $3 + 3 = 6$ $4 + 3 = 7$ $5 + 3 = 8$ $6 + 3 = 9$ $7 + 3 = 10$ $8 + 3 = 11$ $9 + 3 = 12$
---	---

They should be able to answer these questions including missing number questions, e.g.  $2 + \bigcirc = 12$  or  $\bigcirc + 10 = 53$ .

The children should also be able to answer missing number questions such as  $3 + ? = 5$ ,  $3 + ? = 12$

### Top Tips

The secret to success is practising little and often. Practise these KIRFs while walking to school or during a car journey. You don't need to practise them all at once: perhaps you could have a fact of the day?
